PROFILE	
Type of Organisation	Public Body, not for profit
Is the partner organisation a public body?	yes
Is the partner organisation a non-profit?	yes
Total number of staff	127
Total number of learners	1361

BACKGROUND AND EXPERIENCE	
Please briefly present the partner organisation.	"Gheorghe Cartianu" Technical College from Piatra Neamt, N-E region in Romania, is a big technological high-school with 1361 students and 75 teachers. The age of our students is 14-19 years. 72% of the school students are living in rural areas, in the same time the industry of the region is very poor because of the economical recession, agriculture and tourism are the base of the economy in the area. In this conditions we have to enhance our students with skills that will help them to work in small enterprises or micro-enterprises to be able to create their own businesses and to be able to be mobile, to work in other European countries if necessary. The range of qualifications that can be obtained in our school is very broad and can be divided into major areas: -computers and computer science, -electronics and telecommunications, - fine technologies, - mechanics and metalworking, -construction and design of buildings, -textile and leather industry, -chemistry and environmental protection, - food industry and services. In each of these areas, we qualify our students at level 3 or 4 (VET or VET high

	school level). The material basis of the school: -50 classrooms -13 workshops -19 laboratories (5 computer science) -a library with more than 50000 volumes -a gym -2 sports grounds -a canteen with a capacity of 200 students per turn -3 dormitories with the capacity of 600 students - a conference room with 150 seats For the practical training of pupils in the field of specific professional qualifications we have partnerships with the economic agents in the county. Our school is the Authorized Testing Center of the Cisco Networking Academy. https://www.netacad.com/. (*Since 1997, Cisco Networking Academy has been working toward a single goal: fostering the technical and entrepreneurial skills that people, educators, and companies need to change the world for the better*). It also qualifies adults for the international qualifications IC3-GS4. IC3 Global Standard 4 (GS4) course objectives are aligned with today's most current technologies and relevant digital literacy requirements, including social media, collaboration, and cloud computing concepts. The GS4 certification is comprised of three individual exams and is designed to validate competency in three key areas: Computing Fundamentals, Living Online, and Key Applications Since 2018, in our school we have an electronics and robotics group within the County Center of Excellence Neamt. The N-E region where our school is situated is one of the poorest regions of Romania. Our region has the highest level of poverty from all Romanian regions and from European Union " . The students are very often coming from poor families at risk of social exclusion. The industry in our county is situated at a low level with consequences in creating jobs. As a general consequence of the industry decline the unemployment rate is very high and the graduates cannot find workplaces easily in the first years after graduation. Most of the youngsters are migrating to urban regions from Romania or from other countries after school graduation. In 2019, our school was awarded the European School Certificate as a recognition of the quality of the instructive-educational and management act. In 2020, our school was awarded the eTwinning Label School, ID: 94796
What are the skills and expertise of key staff/persons involved in this application?	Gheorghe Cartianu Technical College is established in 1961 to present a modern education that catches up with European Standards. In recent years, Gheorghe Cartianu Technical College participated in many international projects. Usually as a host partner, our institution had trained a lot of students from other countries. The teachers that will be involved in this project are highly experienced teachers, awarded in many local and national competitions. They had been trained in international projects to be good trainers for creative, talented students, to protect cultural diversity and cultural heritage. Key persons: 1.Mrs. LIVIA-MARINELA NICOLAE is a very experienced teacher and a manager with very good results in combating fail in education, creating a climate of friendship and communication in school . She is a school manager since 2021.

	2.Mrs. GABRIELA BRANDUSA HORLESCU -Erasmus project coordinator in school -computers teacher at high-school “GHEORGHE CARTIANU” TECHNICAL COLLEGE, trainer, project coordinator, experienced in partnership cooperation; - graduated in Faculty of Automatic Control and Computer Engineering at "Gheorghe Asachi" Technical University of Iaşi, Romania.1993 -teaching experience of 23 years for Romanian students in the field of computers science, electronic, formal and non-formal education activities -coordinator of the **Arc- Center Of Robotics,** https://clubarcrobotica.wordpress.com/?fbclid=IwAR0lC94cGuHFI4IxWT_Grk-JprfSVNdy7gPeoIV_AsfMzjUQDrS_7uDcTTs * Maker Faire Rome, 6TH Edition, October 12-14, 2018, Fiera Di Roma * ESA Robotics and Automation Teacher workshop, which will be taking place at ESEC-Galaxia in Transinne, Belgium from January 7 to 9 2019. -project coordinator “Creative Opinions Differentiate Education In Maths”, Erasmus+, 2018-1-TR01-KA229-059796_3 -coordinator and volunteer for the social project „Creative robotics workshop”, national call for proposalis Assoclic, 2017-2018 -expert project "My entrepreneurial destiny - Identification and development of entrepreneurial skills for a useful active life". This project was financed by County Department for Sport and Youth Neamt, 2017 -participation in the structured course Unleash the Creative Genius, under Key Action 1: Learning mobility of individuals within the framework of the programme Erasmus+, Cyprus, 2016, programme Erasmus+ 2015-1-RO01-KA101 – 014619, Inclusive and Integrated European School - responsible for the local project "A educated young, a cleaner environment", 2016-2017. -expert project „I will be back soon again in to my village - Promoting in area youth of mountain the rural cultural values and encourage youths to return in the community after leaving school”. This project was financed by County Department for Sport and Youth Neamt, 2016 -volunteer and coordinator for the social project „Scientific and cultural club Multilinguae Cartiani – the digital education”, national call for proposalis Assoclic, 2014-2015 -trainer ICT and secretary in the project „ECDL certification and continuing education in Neamt county”, POSDRU/19/1.3/G/34332, 2010-2012 -member of project implementation Leonardo da Vinci 2012-1-DE2-LEO04-11725, IVOC –International Suporting Network for Vocational and Academic Guidance Staff, 2012-2014 -mobility training Comenius ES-2011-284-2011, project "Science & Art: so Similar, so Different!" -mobility training Leonardo da Vinci LLP/LDV/VETPRO/2010/RO/140 , project "Mobility of teachers for organising training stage of students to learn about the new techniques on CNC machines" -coordinator and volunteer for the social project „Training of adults, a new step in education”, national call for proposalis Assoclic, 2009-2010 -coordinator for the project "A modern qualification for your career" (POSDRU/108/2.3/G/79536) and trainer from „Designer web pages” course , 2011-2012.

-book author: “The study of logic gates using virtual tools and practical experiments”, „Neamt County's mountain civilization as seen by the younger generation”,

4. ERA+ Entrepreneurship for Rural Areas and Social Integration –Network for Guidance and Education, Erasmus + KA 2, 2015-1-RO01-KA202-015004, ASCETIS Piatra Neamt, partner
http://eraplus.wixsite.com/erasmus/despre-noi
The project has a duration of 2 years starting with 1 September 2015
Scope : To increase the attractivity of rural areas by entrepreneurial education , cultural activities and promotion of rural heritage among youngsters.
Objectives :
-To create and provide entrepreneurial curriculum & guide containing practical learning activities and good practices examples/case studies in a network of 10 VET schools, NGOs, SMEs, social and cultural organizations from 7 EU countries
-Create an accessible via Internet virtual learning platform for future entrepreneurs in all countries that will met learners needs.
-To spread this learning resources widely as OER via Internet, workshops, conferences, networks, learning fairs ,into participating organizations, to their partners and directly to learners (1500 final beneficiaries).
-To include this OER in curriculum of high-schools and LLL providers.

5. Handmade jewellery for job opportunity, Erasmus + KA 2, 2016-1-PL01-KA202-026072, Stowarzyszenie, VESUVIO Polonia, partner
https://www.facebook.com/Handmade-jewellery-for-job-opportunity-1822144964731911/

6. *EURspace: European IVT Recognition Gateway*, Erasmus+ KA2, **2015-1-PT01-KA202-013119**.
This project has the general aim to facilitate the mobility of IVET students across Europe and contribute towards the development of vocational education and training without borders, as well as transparency in the recognition and certification of the learning outcomes acquired abroad.
